ENVIRO VAC
THE CLEAN COMPANY

Customer Case Study

Challenge: EnviroVac had high DSO, an inefficient scheduling system, and mountains of paper tickets.

Solution: FieldFX automated their quote-to-cash processes by digitizing all of EnviroVac's paper processes. FieldFX provides reporting that gave EnviroVac a 360-degree view of their business.

Results: EnviroVac was able to reduce their DSO by more than 50%, eliminate revenue leakage and increase the efficiency of their cash collection. FieldFX was also able to provide real-time information that EnviroVac can now offer their customers.

"We've been able to grow the business to a massive scale in a way that I don't think we would have been able to without the help of FieldFX."

Tyler Josey, IT Director
