

# FX EAM Provides Process and Intelligence to Physical Asset Management

## Strategic Reporting

FX EAM provides strategic reporting capabilities. Information such as which pieces of equipment are failing and why, are readily available. By being able to identify which piece of equipment is the most or least reliable, users can avoid costly downtime and provide better service to their customers.

The FX EAM module enhances physical asset management by providing process and intelligence that allows for increased equipment reliability, systematic preventative and predictive maintenance, and efficient regulatory compliance. Each asset can have multiple preventative maintenance schedules assigned to it which automatically generate work orders from highly configurable templates. FX EAM work orders track the labor, tasks and supplies used to perform the respective maintenance as well as other information such as documents, certifications and photos.

## Benefits

- Reduced Revenue Leakage
- Enhanced Contract Compliance
- Maximized Profit Margins
- Streamlined Process from Quote-to-Cash
- Increased Invoice Accuracy
- Elimination of Rogue Pricing

## Features

- Track equipment, location, and usage
- Automatically generate work orders
- Preventative
- Corrective
- Inspection
- Certification
- Model preventative maintenance schedules that generate work orders from criteria that are:
  - Calendar Based
  - Meter Based
  - Event Triggered
- Efficiently Manage Inventory
  - Multiple Warehouse and Bin Management
  - Automatic Ordering
  - Serialized Spare Parts Tracking

Automatic Quote/Ticket Building

## **Inventory Management**

FX EAM can help assure you have the right stock, at the right time, at the right levels, at the right place.
